

August 27, 2017

Dear Parents/Guardians:

For the 2017-2018 School Year, Riverside School District will no longer be using EDLINE as our Online Parent Portal to access Student Grade Progress Reports.

We will be moving to a new Parent Portal system, Computer Recourses' MMS. We will have information about how to register for your Parent Account soon.

We will be getting out a letter to you in a few weeks with information on how to sign up / register for your parent account. There will also be an opportunity during the Elementary Back-To-School nights on Sept 12th at East Elementary and Sept 13th at West Elementary to get help in setting up your account.

A valid email is needed in our Parent Contact information to complete the sign up / registration process. If you get a letter with a blank email address, you need to contact the school building secretary to update your email information in our system.

Best wishes for a great School Year!

**Mrs. Chisdock
District Technology Coordinator**
