Dear Parent(s)/Guardian(s),

The safety and welfare of our students and staff are our highest priorities. In the past we have experienced traffic congestion during our arrival time. In order to alleviate such issues the measures that are listed below will be taken starting on **Wednesday, September 7, 2016**. Please know that we will continue to monitor the new process and make appropriate changes as necessary.

- Parent drivers must enter the school grounds with caution and abide by all traffic laws.
- Parent drivers must begin to line up in the designated drop off area directly in front of the building.
- Parent drivers must not drop off students in any areas other than the designated drop off area.
- Students must exit vehicles independently on the passenger's side and report directly into the school building in order to ensure safety.
- Parent drivers must remain in vehicles, stay in single file traffic patterns, and move cautiously through the driving areas following all traffic laws including following buses.

Again, the goals of the new procedures are to help relieve traffic congestion during our morning arrival and to provide a safe environment for our students, parents, and staff. Your understanding and cooperation is greatly appreciated.
