

3rd Period

CS First Instructions

1. Go to g.co/CSFirst
2. Click "**Sign in**" in the top right
3. Click "**I am a student**"
4. Click "**Enter class code**"
5. Enter class code **wd63r7**
6. From here, students can create a CS First account or use an existing one. Usernames and passwords of your students will show up on this page.

Once you join you MUST write down your username and password. This username and password is used to sign in CS First for your instructions on projects and it is to be used to login into Scratch!

Once signed in, follow all instructions and complete the [Animate your name project](#) and [Create your own Google Doodle projects](#)

Instructions for each project

View your videos on how to create your projects on g.co/CSFirst – click on starter project on the right hand side of the webpage

1. Sign into Scratch

2. Make sure to click remix in the middle top of the Scratch webpage

Make sure to watch add on videos and include at least 2 in your projects

3. Share project when finished (also on top of the Scratch website)

4. Once you hit the share button, provide instructions of how to make your animations work

Example: Click the flag first and then click on each letter to see them move!
