Prophecy

Setting is 2037, Kaleb Jones comes in to see his patient is a fellow Riverside classmate of his.
K: Hello, Sir. I'm Doctor Jones. How are you doing today?
M: I'm good, I've just been having some trouble with.. Hey wait. Kaleb is that you?
K: Matt? Long time no see! What have you been doing all this time?
M: Well, after College I founded a Cruise company called CruiseTho. I'm the captain of one of our boats, and am living the life.
K: That's great! I'm an orthopedic surgeon here at John's Hopkins. It gets pretty crazy sometimes, but I love it. Hey whatever happen to the rest of our class? You used to be good friends with Michael Spinelli, Randy Kincel, Andrew Panek and that group right?
M: Yes, I still see them from time to time. Michael Spinelli, after he quit his job working as a Wal Mart greeter, became a John Deere salesman at Lowe's. Randy Kincel became a top plastics engineer while at Penn State. He now specializes in making the best sandwic bags for Glad. I still beat him in pool. Andrew Panek graduated as a chemical engineer from Penn State, and was an ultimate frisbee champion. I even hear he is operating a startup company in Silicon Valley. Are you still in touch with Dionna Defazio and Kyle Davis
K: Oh, cool. Dionna DeFazio, because she couldn't become an Avenger, uses her skills to test new products in pharmaceuticals. She works alongside her lifelong friend, Kyle Davis. They're trying to make their own superhero, or something like that. Have you heard from Sal and Cassie?
M: Yah, Cassie Semyon became a news analyst for ABC. After a successful career, she went back to Riverside to become the PTA president for Riverside. Sal DeFrancesco, after a successful journey through Harvard, became a corporate lawyer. I hear he's running f President in the next election as well. They finally got married, you know.
K: It's about time. You know, I saw RJ Kosciuk and Mason Dennis the other day. After trying out every gym in Pennsylvania, RJ fina decided to stay at UNO Fitness, where he's a personal trainer.
M: And Mason Dennis went on to become an undercover agent for the FBI. He must be doing a good job, we never see him!
K: That's for sure. Kassidy Puckett and Mallory Puchalski both went into early special education too. They both teach Kindergarten a Abington Heights.
M: Bailey Matsko and Jenna Larnerd created their own private practice, where they specialize in diagnosing and treating various disorders. In recent events, Bailey also has thrown in his bid to become the next Mr. Universe. They employed Emily Bush and Ashle Sabatelle.
K: Really? I was actually at Keystone National Park a while ago, and saw a familiar face.When Smokey the Bear said "Only you can prevent wildfires", Joe Kester took this to heart, and went on to become a park ranger. I also saw Joe Pacholec on the water, who will featured as America's next best pro fisherman. On a side note, he also is a DJ whose career is on the rise
M: Speaking of nature, I hear Allison Pinnell became a photographer for National Geographic. She specializes in taking close-up pictures of insects.
K: Ray Smith also discovered his true love for nature, and became Discovery Channel's next "survivorman".
M: Hey did you see the Mercedes Kris Merrick Tompkins drives now? He became the lead salesperson for a dealership in Allentown.
K: Yah, he gets it cleaned every month too by Cole's A Plus powerwash business. Cole Kazmierczak couldn't always get A plus's in school, but he sure can get them when he's power washing your car.
M: Hey do you remember prom? After losing the battle to be the king against Chancey Bradley, Thomas Navich found himself depressed and in an emotional wasteland. Not knowing what to do with his life, he applied to become a Louis XV and Gucci model, b was rejected. However, in a recent turn of events he reclaimed his throne, and is now the Burger KING.
K: And Chancey Bradley, after his glory days as the Riverside Prom King, became the President of the National Wildlife Federation. I knowledge of the Earth cannot be matched.
M: Remember Lauren Grzyboski? After unsuccessful attempts of finding employment in America, she became an accountant for Burg King in their new headquarters located in Quebec. Anthony Vancheri also learned of his true love for providing entertainment for kids and works as an accountant for Chuck-E-Cheese's. On a side note, he also volunteers to be Chuck E on the weekends.
K: So did any members of our class enter the medical field?
M: Oh, lots did.Ryan Erfman will marry his high school sweetheart, and will continue to not even lift at planet fitness. He is currently neurosurgeon, and even golfed with the President. Chris Speicher went on to become a physical therapist. I actually went for a check u last week, where he began my session by saying, "Trust me. I'm a doctor." I will be seeing a psychiatrist tomorrow. Alyssa Mendos al works in the field, and is a pediatric doctor. Morgan Mickavicz is a psychologist now. I hear that job can get pretty crazy. Lacee Colli got into sports medicine. She's a trainer for the University of Florida's softball team now. Alexa Chomko always kept things clean. She's really good at cleaning my teeth when I go in for my dentist appointments. She hired Nichole Thomas as a dental hygenist.
K: Wow, I heard more people did as well. Brianna Galonis actually won the lottery, the first time she's actually ever won a contest. She's loaded but she still works as a physician's assistant. Taylor Tilberry now serves as leading nurse during Ryan Erfman's brain surgeries. She provides anesthesia to the patients, and has the privilege of studying the brain while in surgery. Daniele Saranchuk has developed a revolutionary foot massaging device, and is currently sponsored by Martha Stewart. Even Cassie Soulivanh became a pharmacist and now works at Rite Aid Pharmacy. I get my prescriptions from her every now and then. Morgan Gable is an emergency room nurse now as well. She fixes cable and tv antennas on the side.
M: I heard some of our classmates also joined the military. Joe Mcbride went on to join the Marines to protect our country, one ISIS fighter at a time. Also, Nick Pucilowski went into the Armed forces, and is now a pilot in the Air Force.
K: Yeah, the arts were a popular area with our classmates as well. Abby Sweeney's love for art landed her multiple debuts around the country. Under the guidance of Mr. Yanashot, she is now a world renowned sculptor. Zachary Warfield found a successful career in being a carpenter. He now makes chairs using his artistic skills. Kayla Buckley went on to become a famous writer, despite her claims Mr. Borthwick about how bad she was. She finally saw her true potential. And after the booming success of his YouTube channel, Ry King will follow the steps of Roger Ebert and become a movie reviewer for the New York Times.
M: Yeah, I heard Baley Sutton became a comedian, and was even featured on Comedy Central two years ago. Emily Bryk used her lif experience to become a poet, and is now referred to as the modern Emily Dickinson. Nadia Davies has become a professional piercing and tattoo artist, and has recently fulfilled Mr. Kennedy's dream of having a face tattoo. Tera Sheerin graduated from the Liverpool

ıstitute of Performing Arts and continued her path onto Broadway. She now stars in Broadway's new edition, Peter Pan.
.: Speaking of the arts, the music industry has blossomed as well. Sarah Murphey's musical talent has landed her on many a orchestras ıat play across the United States, and is now performing the violin under the lead of Andrew Gallagher, who we know, single handedly ın Riverside High School. He now runs something much bigger, as the Director of the New York Philharmonic. Shane Snyder is one of ıe saxophone players.
I: Really? I also hear Tiffany Brady became a rapper, and has recently published albums such as Say My Name and We Own These treets. Phil Kroptavich discovered his voice could make him some money. He is the lead singer in his band, and they've released two bums so far.
.: I also have heard some of our classmates have entered the field of athletics. Evan Harbert became an NHL referee, where his trucking kills will land him a contract with the Pittsburgh Penguins. Javier Gonzalez went on to become an Olympic runner, and broke the world ecord with his outstanding mile time. Brenton Nowicki took his MMA skills to the next level, and is now the Welterweight Bellator ıampion of the world.
I: That's awesome! Some classmates have also entered the business world as well. Billy Fezuk joined the Zeta Omega frat in college. e then became an accountant for PNC Field. Jason Shoemaker took to heart his namesake, and founded his own company, Shoemakers c, where he directly competes with companies such as Nike and Reebok. Mike Borowski, after graduating from Temple, works as a ıarketer for Coca-Cola. Austin Naughton will form the computer security company "Not in", which specializes in blocking viruses and ɔam. Julia Osmolia has climbed the corporate ranks of Subway, to become a lead marketer. She even gave us all free hoagie passes at ur last reunion.
.: Speaking of business, going into the field of computers seemed to be popular among our classmates. Jordan Nagle works with ɔmputer security, and has successfully cracked the firewall. He created a much stronger system, and now passes the time by literally ıthing in his money at night. Samantha Wigley used her computer software skills to design a new Siri program for Apple. Carlie oolbaugh's computer science degree has given her the skill of hacking, to which she applied it by infiltrating the NSA, and became the ext whistleblower.
I: Don't forget the food industry! Kyle Kelly realized his true potential in the food industry, and went on to become a world class ıker. Rachel Tinklepaugh and Amy Thubborn perfected Willy Wonka's 5-course meal gum idea. I actually chewed a piece before ork today. Marie Stewart has her own cooking show now, that took over for her distant cousin, Martha.
.: Yeah, and working with nature was a popular choice as well. Rio Hueg's passion for animals drove her to open her own Zoo in lbequerque. There's an owl exhibit there I'm actually quite impressed with. Ray Smith discovered his true love for nature, and became iscovery Channel's next "survivorman". John Plisko pursued his interest in the outdoors, and eventually got his doctorate in Ecology. e now teaches several Ecology courses at Penn State University. Emily Swingle is now a professional landscaper. She now works as ead groundskeeper for Buckingham Palace. Do you know anyone who has chosen to work locally?
I: Of course! After being unable to find a job in the FBI, Adam Leasure will follow his father's footsteps to become the minister of his ıurch. Paul Harrison became the next Taylor fire chief, and he and Derek Ruthkosky use their streams of justice to quell the flames way. Dominique Pilosi currently uses her communication skills to work as a beautician at Sephora. Matt Hebden replaced the beloved Ir. Kolessar as Riverside's calculus teacher, and continues to play elefun with all of his classes. Jeremy Ortiz took to heart his ɔmmunication skills, and is now a used car salesman at Gaughan Auto. Nathan Dommes decided after high school to become a ıortician. He took over Semian Funeral home when the owners moved to New Zealand. Justin Thomas and Nichole Diaz currently erve on the Riverside School Board. Brian Roche took after his dad and became a police officer. He went up in the ranks, and is now a tate Policeman in Pennsylvania
.: Cool, I know people have chosen to work in far away areas as well. Paige Pliss's gas drilling adventures have led her across the lobe. She is currently drilling for gas on the moon, and is expected to make a big discovery. Timothy Tayntor petitioned Cartoon etwork to bring back Popeye, to which he was successful. He now voices Popeye in California. Nancy Ariza used her language ɔeaking abilities to become the lead interpreter for all national affairs including Central American countries. Brittany Beadle has set ide her own wishes to become part of the Peace Corps. She is currently in Bangladesh, helping others in need. Keisha Buttaro and essica Nagurney studied Architecture in foreign countries such as Italy and France. They picked up some important artistic techniques ver there. Diana Alers defied the conventions of society and become a professional tightrope walker. Her next stunt will be across iagara Falls.
I: You know Kaleb, I just remembered the Rugar brothers. Robert Rugar decided that his true love blossomed in arranging flowers. He orks at a greenhouse in North Carolina. Devion Rugar decided his true passion was for acting. He is now starring as Mr. Boogie in inister 3. How about that?
.: That's odd, but there are some other interesting things people have been doing. Allison Beil became a dream interpreter, and wrote a ɔok called "What Dreams Really Mean". That's all I can say for now, I can't ruin the book. Alyssa Stone took to heart the Legend of ıdiana Jones, and is set on finding the Holy Grail. Brittany Buck has taken up hypnosis, and entertained countless people. She has even ɔnvinced Leonardo DiCaprio he has the ability to enter other people's dreams.
I: That's really cool, I even heard Aaron Robbins found himself in a pickle shortly after graduating, but soon learned his passion in life as motivational speaking. Not to mention Brianna Gallagher now works with keeping animals healthy, and specializes with zebras and ıonkeys at the Philadelphia Zoo.
.: I even heard Corrine Evans beat out Adam Leasure for crime scene investigator for the FBI, and is currently working on a case ıvolving a two Congressional officials. I can't forget Nicole Gula; she became a chemist. She handles some rare elements periodically.
I: I also know Alyssa Mazzei and Laura Soriano decided to team up to stop animal cruelty. They partnered with Liliana Ortega and lichelle Taft to organize their own charitable organization, and to take care of abused animals.
.: Well Matt, its great knowing what everyone's been up to over the years!
I: Yeah it was, I can't believe the time has passed so quickly! I have to get running now, I have a cruise to operate in a few hours. I'll e you at the next reunion!
.: Will do! Stop in for a check up sometime.
I: Absolutely!

Who's That Baby?

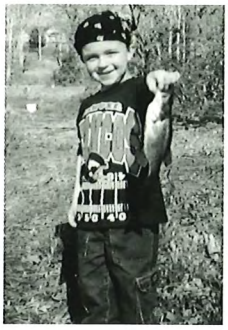

LITTLE BEARS

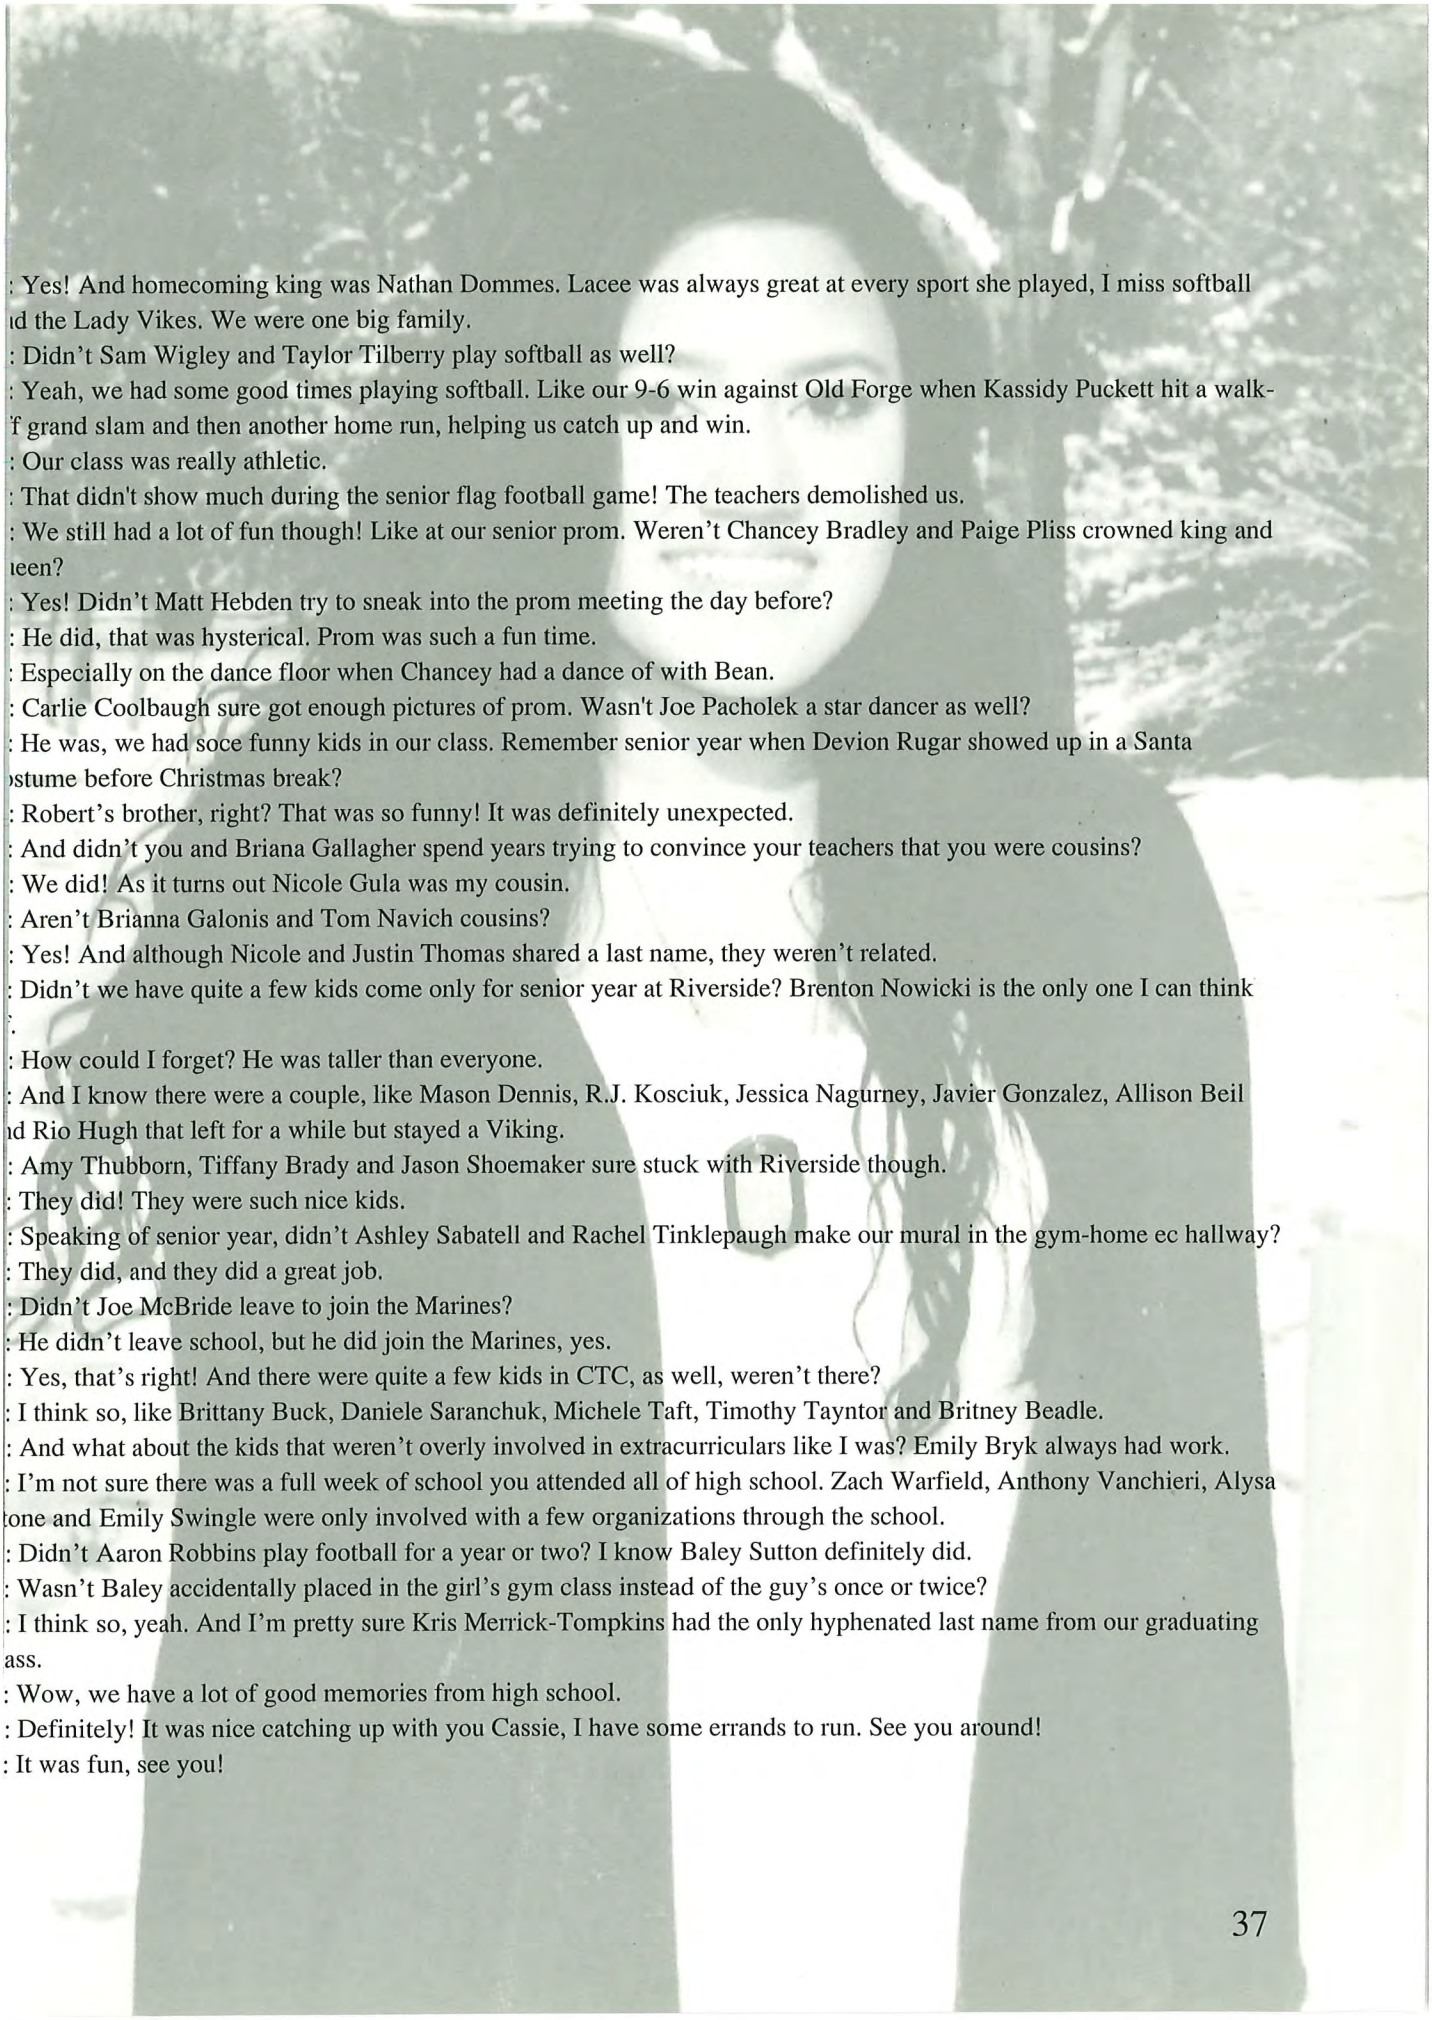

History

Setting is 2030. Andrew Gallagher and Cassie Soulivanh meet in Panera Bread

Andrew: Hey Cassie! Long time no see.
Cassie: Right? How have you been?
A: Pretty good! I just ran into John Plisko yesterday, we were reminiscing about our middle and high school years. I remember senior year, when he was the football team captain, Julia Osmolia was Miss Viking and I was Drum Major, w called to the office at the end of the day. We thought the football field caught on fire or something.
C: That's so funny! Brianna Galonis, Morgan Mickavicz, Mallory Puchalski and Allison Pinnell were the cheerleading captains that year, weren't they?
A: I'm pretty sure they were, yes. Alexa Chomko and Dominique Pilosi were cheerleaders that year as well. I wonder if Brianna and Randy Kincel are still dating.
C: I think they got married a few years ago, actually.
A: That's great! I heard that Keisha Buttaro and Abby got married as well.
C: Didn't Chris Speicher and Laura Soriano date?
A: Nobody knew for sure.
C: Chris was in the play for a couple of years, wasn't he?
A: Yes; there were those two, Corrine Evans, Jordan Nagle, and Jeremy Ortiz on stage crew.
C: And there were quite a few on-stage as well.
A: There were! Like Tera Sheerin, she moved to Japan for a year.
C: And Cassie Semyon, she was really important in a lot of the plays.
A: She was Mr. Borthwick's and Ms. O'Shea's star pupil, wasn't she?
C: Between her, Dionna DeFazio and Sal DeFrancesco, yeah.
A: I remember when our senior AP Lit class gave him a standing ovation the day after he was accepted to Harvard.
C: Wasn't Dionna a huge Marvel fan?
A: Big time. It's possible that she's watched those movies a higher number of times than Ryan King has made movie reviews.
C: Kaleb was in Senior AP Lit, wasn't he?
A: He was! Do you remember when Michael Spinelli knocked him out playing floor hockey during gym class?
C: He was quite an interesting fellow, but so were the guys he hung out with, like Matt Keegan, Adam Leasure, Andrew Panek and Ryan Erfman.
A: There were a couple of pretty close friend groups in high school. Like Michael Borowski and Billy Fezuk.
C: I think I remember Lauren Grzyboski, Emily Bush and Alyssa Mendos spending a lot of class-time together.
A: And don't forget Joe Kester, Ray Smith, Brian Roche, Derek Ruthkowski, Nick Pucilowski and Paul Harrison.
C: There were a few others, like Phil Kroptavich, Cole Kazmierczak, Kyle Kelley, Jenna Larnerd and Bailey Matsko.
A: Yeah, that's right!
C: I think Diana Alers, Liliana Ortega and Nichole Diaz all sat at a lunch table together and with the some juniors. And Nadia Davies and Nancy Ariza sat together in Kennedy's classes.
A: Weren't Kayla Buckley and Kyle Davis good friends in AP Lit?
C: I think so! And what about you, Shayne Snyder, Sarah Murphy, and Evan Harbert?
A: Yeah, I remember Sarah and her band won their division for one of Mrs. McDermott's talent shows. The three of us were always involved in things.
C: And Evan was a hockey referee, wasn't he?
A: Yes! Not many kids were that good at their sport that they could ref.
C: Alyssa Mazzie and Austin Naughton were in track, from what I remember. And Lacee Collins was a softball star too.
A: Remember when she won homecoming queen and she was crowned in her football uniform?

: Yes! And homecoming king was Nathan Dommes. Lacee was always great at every sport she played, I miss softball
ıd the Lady Vikes. We were one big family.
: Didn't Sam Wigley and Taylor Tilberry play softball as well?
: Yeah, we had some good times playing softball. Like our 9-6 win against Old Forge when Kassidy Puckett hit a walk-
'f grand slam and then another home run, helping us catch up and win.
: Our class was really athletic.
: That didn't show much during the senior flag football game! The teachers demolished us.
: We still had a lot of fun though! Like at our senior prom. Weren't Chancey Bradley and Paige Pliss crowned king and
ıeen?
: Yes! Didn't Matt Hebden try to sneak into the prom meeting the day before?
: He did, that was hysterical. Prom was such a fun time.
: Especially on the dance floor when Chancey had a dance of with Bean.
: Carlie Coolbaugh sure got enough pictures of prom. Wasn't Joe Pacholek a star dancer as well?
: He was, we had soce funny kids in our class. Remember senior year when Devion Rugar showed up in a Santa
›stume before Christmas break?
: Robert's brother, right? That was so funny! It was definitely unexpected.
: And didn't you and Briana Gallagher spend years trying to convince your teachers that you were cousins?
: We did! As it turns out Nicole Gula was my cousin.
: Aren't Brianna Galonis and Tom Navich cousins?
: Yes! And although Nicole and Justin Thomas shared a last name, they weren't related.
: Didn't we have quite a few kids come only for senior year at Riverside? Brenton Nowicki is the only one I can think
.
: How could I forget? He was taller than everyone.
: And I know there were a couple, like Mason Dennis, R.J. Kosciuk, Jessica Nagurney, Javier Gonzalez, Allison Beil
ıd Rio Hugh that left for a while but stayed a Viking.
: Amy Thubborn, Tiffany Brady and Jason Shoemaker sure stuck with Riverside though.
: They did! They were such nice kids.
: Speaking of senior year, didn't Ashley Sabatell and Rachel Tinklepaugh make our mural in the gym-home ec hallway?
: They did, and they did a great job.
: Didn't Joe McBride leave to join the Marines?
: He didn't leave school, but he did join the Marines, yes.
: Yes, that's right! And there were quite a few kids in CTC, as well, weren't there?
: I think so, like Brittany Buck, Daniele Saranchuk, Michele Taft, Timothy Tayntor and Britney Beadle.
: And what about the kids that weren't overly involved in extracurriculars like I was? Emily Bryk always had work.
: I'm not sure there was a full week of school you attended all of high school. Zach Warfield, Anthony Vanchieri, Alysa
tone and Emily Swingle were only involved with a few organizations through the school.
: Didn't Aaron Robbins play football for a year or two? I know Baley Sutton definitely did.
: Wasn't Baley accidentally placed in the girl's gym class instead of the guy's once or twice?
: I think so, yeah. And I'm pretty sure Kris Merrick-Tompkins had the only hyphenated last name from our graduating
ass.
: Wow, we have a lot of good memories from high school.
: Definitely! It was nice catching up with you Cassie, I have some errands to run. See you around!
: It was fun, see you!

Salute

Every September the bell would ring,
Good morning Class of 2015.
With each and every passing year,
Graduation grew even more near.

But now the day is almost here,
Let's reminisce before we part.
We've reached the end of senior year
With applause, tears, and joyful hearts.

Fall festivities came with changing leaves,
And Tennis, Soccer, Cross Country, and Football.
Two of our runners made it to States,
and the cheerleaders' dance "Thrilled" us all.

Spirit week arrived in late October.
We threw back to several decades past.
Lacee and Nathan were crowned homecoming queen and king.
Our hall of the 50's gave us first at long last.

"You wish you were us" our shirts proclaimed
At the senior v. faculty football game.
But after being outrun by the teachers,
We all kind of felt pretty lame.

Then temperatures dropped and the snow piled up
Keeping us home and sleeping in late.
Though we didn't complain about two hour delays,
It made us move back our graduation date.

2015 was finally here.
Six more months until we graduate.
We danced all night at the "Snow Ball",
And both our basketball teams were great.

The Drama Club brought us "Into the Woods"
With a wonderful crew and cast.
After many hitches, we pulled it off
And made memories that will last.

The season continued with track and field
Along with baseball and softball too.
Those boys and girls teams ran and played hard
And brought pride to the red and blue.

The juniors gave us 'A Night Under the Stars,'
where we showed off our tuxes and gowns.
Chancey and Paige were named royalty
and proudly wore their king and queen crowns.

Class Night brought laughter and a few stray tears,
As Will, Prophecy, and History were read.
We awarded class clown, class couple and more,
Reflecting on our past while looking ahead.

We haven't much left of our high school career
As our final days wind down.
We turn in our books, clean out our lockers,
And soon will don caps and gowns.

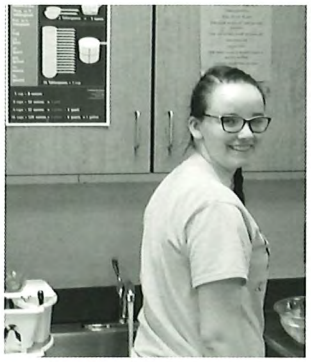

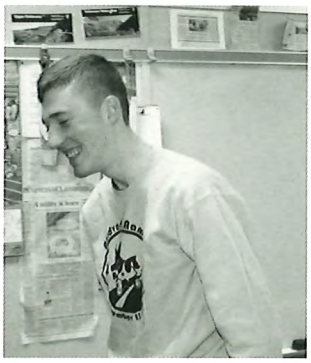

So hail to thee,
Our alma mater dear.
With joy and with tears,
We end our senior year.

And on Graduation Day,
When our life pathways shall part,
Know that near or far,
We will always be Vikings at heart.

The Riverside Varsity Golf team, under the coaching of Mr. Bob Coyle, completed the season with an eleven win, three loss record at its home course, Pine Hills Country Club. Their year began at the Memorial Links Golf Course in Forest City, where the team earned its first defeat, despite the efforts of Noah Munley and Matt Torrisi, who won their matches and better ball to score four points. From that point forward, the team couldn't be stopped. They won the next seven matches, and only after facing Holy Cross, the league's best ranked team, did Riverside experience defeat again. The season was then capped with a 72 victory over the West Scranton Invaders with wins from Sal DeFrancesco Adam Leasure, Matt Torrisi, and Justin Copp bringing the Pine Cup Trophy home to Riverside for the fifth straight year. Despite the two losses, Riverside was the third ranked seed in the entire division, but with four more victories (and a fortuitous tie between Forest City and Lakeland), the team moved into the number two slot. Not only did this earn them a bye from the first round of playoffs, but it provided home course advantage for their next match. In spite of this amazing accomplishment, the team lost to Forest City for the second time with a final score of 54. Regardless of this loss, Riverside golf was the winningest fall sport at Riverside, not only in the team's playoff opportunities, but also in the player's. Adam Leasure, a Senior and Captain, shot a 78 at Elmhurst Country Club, allowing him to move from Predistricts to Districts (where he shot a commendable 85). Sophomores Noah Munley and Matt Torrisi shot a 91 and 93, respectively, also moving them on to Districts (where they shot a 96 and 89). With the leadership of Senior's Adam Leasure and Sal DeFrancesco, and with an undefeated personal record from Matt Torrisi, the 2014 Riverside Golf team had one of its best seasons ever.

Football

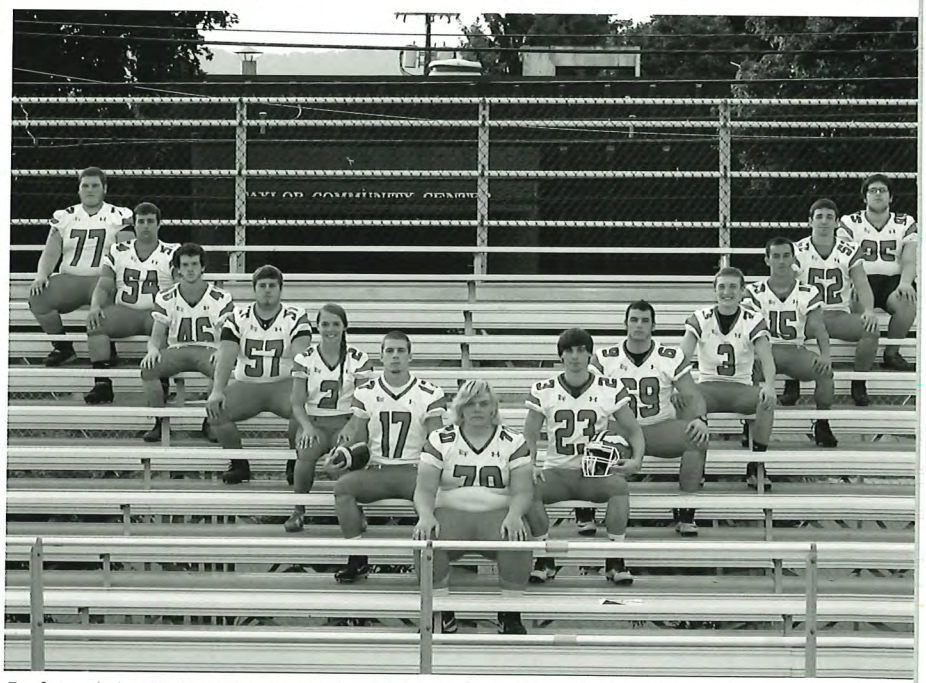

With a new man at the helm of the ship, the Viking program was ready to set sail on a new chapter of Viking football. Starting off in the hot summer months, our boys and girl began working hard. After overcoming the long practices on summer days and doubles, the Vikes started off the season with a few tough losses. But after some strong senior leadership, the team came around and posted a few W's in the win column. The boys of fall showed their true colors by overcoming adversity and proving what Viking Pride is all about!

Band

Riverside's instrumental music program has been increasing in quality and size the past few years, th year boasting 6 seniors across the three bands: Morgan Gable, Andrew Gallagher, Evan Harbert, Sara Murphy, Shayne Snyder, and Chris Speicher. This year's marching band, under the direction of Mrs Megan Hulse, played their hearts out with their "Dance Party" theme, containing the songs Crazy in Love, Shout, Y.M.C.A., and Wipeout. The marching band also performed the National Anthem at a WBS Penguins hockey game this year, and a few members participated in the American Red Cross's Roof-A-Thon "Blow Your Brass Off" Competition. Under the direction of Elizabeth Reifler, the concert and jazz bands have also rehearsed and performed exceedingly well, while seniors Andrew Gallagher and Sarah Murphy qualified for the PMEA District 9 and Region IV bands.

Boys' Basketball

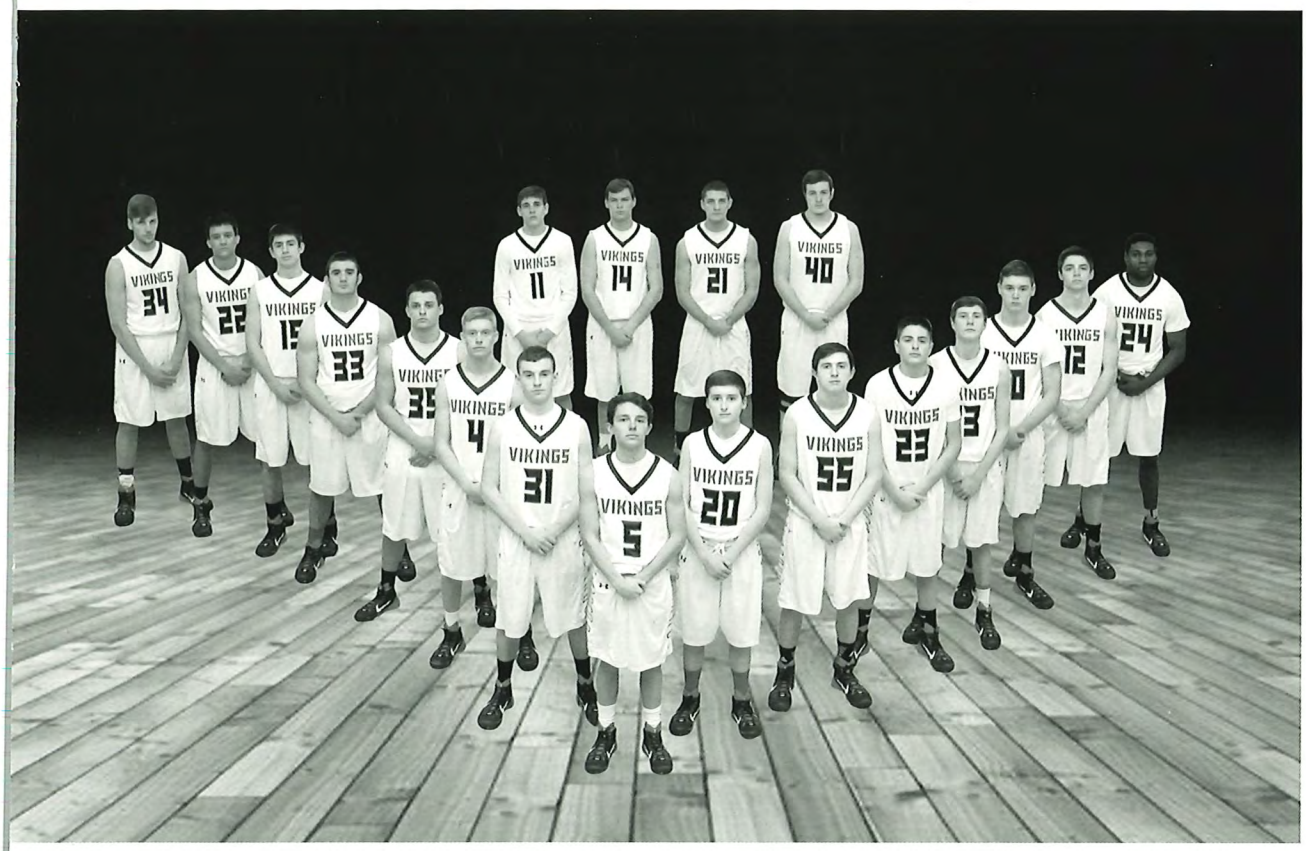

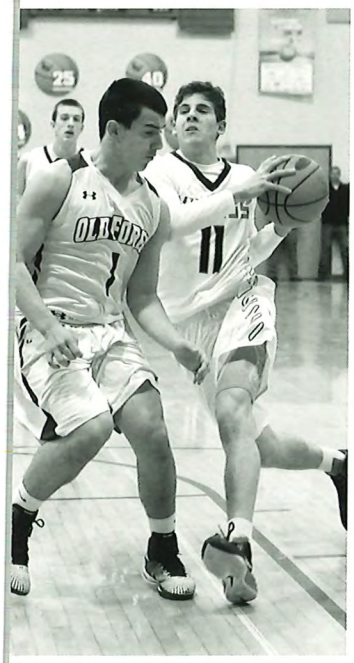

In the summer the boys worked hard, playing summer league and going to camps. With a rocky start, the team came together to post big wins against area rival Old Forge and state ranked Mid Valley. The boys continued their streak by winning the Taylor Lions Tournament. Going into the playoffs as the 9th seed, they knocked off the 8 and 1 seed in the distict. The season fell short of state playoffs but was one to be proud of.

The Riverside Boys were the winners of the annual Lions Holiday Tournament this season.

Girls' Basketball

This year's Girls'Varisty team has always been like a second family to each and everyone of the 15 girls. They have laughed together, cried together and more importantly grew an inseparable bond together. Coach Mekilo always talked about the team being young and needing to step up in such a competitive league. The team might not have won any titles but we did learn to believe in each other and by doing so became competitive. The season concluded with the team gaining valuable experience that they will be able to use in the future.

Into the Woods

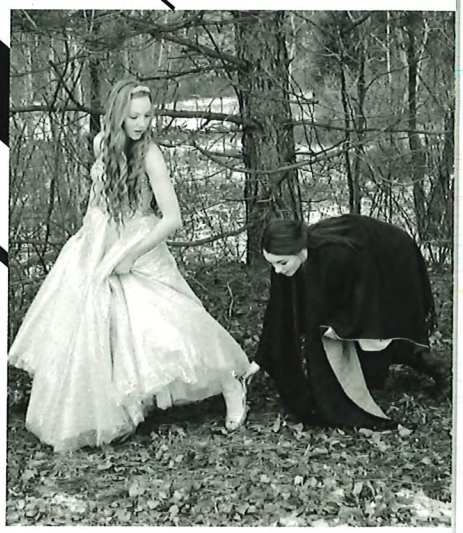

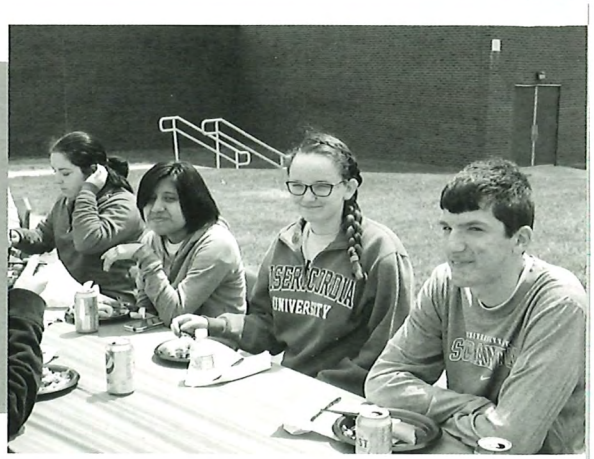

Riverside was swept away into the magical world of music and adventure the weekend of February 6 as The Drama Club took the audience for a trip "Into The Woods." Into The Woods tells the story of a Baker (Andrew Gallagher) and his wife (Katie Howey) who venture out into the unknown in search of story book items to appease the witch (Tera Sheerin) who can grant their greatest wish. The search tied in stories such as Cinderella, Rapunzel, Jack and the Beanstalk, and Little Red Riding Hood. The play offered an unexpected twist to our classic tales.

The Drama Club faced many difficulties preparing for their annual show, but overcame all of the obstacles which presented themselves. During the Saturday showing, a cast member took a trip to the hospital after hitting her head during the show and getting a concussion. She came back the next day and performed better than the days prior. Despite the many setbacks, the Drama Club managed to pull off another amazing show. All three days were filled with charm and thrills, but the third showing of the play brought in a new emotion as the seniors singing on stage began to cry during their performance. It was a truly heart-touching moment that made those watching cry a little, too.

Randy,

Where has the time gone? It seems like yesterday that we watched you enter East Elementary on your first day of school and now you are marching out of Riverside as a fine young man. We are so proud of the person that you are and all that you have accomplished in both the classroom and athletics. Congratulations on a job well done. We know that you will succeed in everything you do. Thanks for the great memories at Riverside and we look forward to your continued success as you begin a new chapter in college. We wish you the best of luck always.

Randy,
I will never forget the times that we shared playing basketball together from the driveway at our house to playing varsity on Riverside's court. I will always remember the fun we had. Whether it was fishing, hanging out by our pool, playing sports, going to Penn State games, or just simply annoying mom and dad, we did it together. We are family and I will forever be there for you. I am so proud to be your brother and I am looking forward to watching the rewarding future that awaits you. Best of luck.
Love, Jerry

Happy Retirement Ms. Kap and Mrs. Mal!

We pray to the Lord our God, that He will look graciously upon all of our Riverside students and will send down into their hearts, minds and mouths the spirit of wisdom, understanding, piety and His fear; that He will illumine them with the light of His knowledge and bestow upon them strength and steadfastness. O Lord, hear us and graciously have mercy.
